Project Value

\$165,000,000

Project Description

The Credit Valley Hospital Phase II Redevelopment Project has added approximately 270,000 sq.ft. of new construction (increasing the hospital's size by almost one third), and approximately 70,000 sq.ft. of renovated space. The new four-storey inpatient unit and a two-storey / three-level addition serves patients in maternal/child care, complex continuing care, rehabilitation, surgical oncology and palliative care; doubling the number of labour and delivery rooms (from 7 to 15) to improve care and services for mother and babies; increasing bassinets from 22 to 37 to facilitate care for pre-term and other newborns requiring specialized neonatal care adding an operating room and two new procedure rooms; and building a new high-density radiation therapy suite and resources for expanded cancer treatments to better meet current patient volumes and the expected volumes in coming years.
