Project Description

The Georgian Centre for Health and Wellness is the largest expansion project in the history of Georgian College. The new building has facilitated a team-based interdisciplinary approach to health, wellness and science education. It features a leading-edge laboratories and technology-enhanced classrooms. Teaching health clinics has have provided valuable work experience to students while offering much-needed health care for students and local community members. And it has puts Georgian College at the forefront in addressing serious challenges in the growing shortage of skilled health care workers in our the region.
