Project Completion Date

July, 2018

Type of Contract

Lump Sum

Project Value

\$34,618,000

Project Description

The Health Services Centre project will see the integration, relocation and expansion of the existing medical facilities at CFB Borden. This new 7199 m² facility, now under construction, will house physiotherapy, dental and mental health services under one roof. The existing medical facilities are located in four older buildings located across the base. This aging infrastructure will not be able to meet the anticipated needs required at the base. The Centre will translate into improved efficiency and facilitate the delivery of care, due to the consolidation of medical services in one location.
