Project Completion Date

March, 2006

Type of Contract

Lum Sum

Project Value

\$18,200,000

Project Description

The Stronach Aurora Recreation Complex maximizes the usage, pleasure and efficiency of the facility for a variety of uses including swimming competitions and lessons, lifeguard training, aqua-fitness programs, leisure swimming and ice-related activities.

- A 25m lap pool with 8 competitive swimming lanes and designed to allow filtration of natural light.
- A learning pool, which may be used for classes or warming up before competitions.
- For younger children and the young at heart, a leisure pool with wheelchair access provides a safe environment for children's first introduction to the water as well as fun for the whole family.

The new Ice Surfaces include:

- Twin Pad Rinks - each consisting of approx. 30,000 sq. ft. - with spectator seating, a warm viewing area, 12 dressing rooms and a pro shop
- Ice resurfacing room, service and storage space

Common Recreational Area includes:

- Administration, Snack Bar, Toddler, Pre-School and Meetings Rooms
- Storage Space and Washrooms
- Landscaping and site development
- Parking for 325 cars
