Markham, Ontario

THEATRES

Client

Cineplex Entertainment LP

Consultant

Gerald Labelle Architect

Project Completion Date

December, 2014

Type of Contract

Lump Sum

Capital Cost

\$7,200,000

Project Description

Construction of a new state-of-the-art theatre featuring the VIP Cinema experience, approximately 58,000 square foot theatre which includes 10 traditional auditoriums, three VIP auditoriums and 2,400-plus seats.

This entertainment destination is located in the new Downtown Markham development. The new theatre showcases our traditional Hollywood movies and also features alternative programs such as the Met Opera, Broadway and National Theatre productions, concerts, sporting events and more, making this a true entertainment destination for Markham residents and tourists alike.

Each VIP Cinema auditorium features all stadium seating with expanded leg room, luxurious high back leather seats, side tables and reserved seating – enabling you to choose exactly where you want to sit. VIP services feature an array of food and beverages including an expanded range of appetizers which are delivered to your seat via our in-seat service. Before or after the movie, there is a licensed lounge available exclusively to VIP Cinema guests.

UltraAVX™ is a technically superb entertainment offering, providing guests with a truly immersive movie-going experience. Guests attending a movie in an UltraAVX auditorium are treated to a screen significantly larger on average than our traditional screens, superb Dolby digital surround sound, extra-wide high-back rocker seats and reserved seating.

All screens are equipped with Christie digital DLP projection systems providing guests with the crispest imagery and sharpest picture onscreen. Four auditoriums, including UltraAVX, are equipped with RealD 3D technology allowing guests to experience the many 3D movies available. Full stadium seating in each auditorium ensures optimal sightlines and ample legroom.
